August 2022

Legislative Luncheon

**Saturday
Aug. 20, 2022**

**IN DEFENSE
OF LIFE**

Why attend?

TO STAY INFORMED. 2022 may be the most consequential year for the Right to Life in 50 Years: You are pro-life. You are hopeful for an imminent U.S. Supreme Court decision striking down Roe and Casey, but want to learn more about what that means for Michigan. You are aware and concerned or unaware and seeking more information about the Planned Parenthood/ACLU funded petition drive that would enshrine abortion as a right and prevent ANY & ALL current or future abortion restrictions of regulations in the Michigan State Constitution! CALL TODAY TO RESERVE YOUR SEAT!

Keynote Speaker: Rebecca J. Mastee, J.D. Rebecca is Policy Advocate for the Michigan Catholic Conference (MCC) with a focus on life issues. The MCC is a leader within the Citizens to Support MI Women and Children coalition opposing the Reproductive Freedom for All petition drive.

Clergy Invocations: Rev. Dr. Richard Zeile of St. John Lutheran Church (Taylor) & a local Catholic pastor TBD

**Doors Open 10:30 AM

LIFESPAN Chapter News

They Fear the Truth - Vandals Strike LIFESPAN

We were advised by Outfront Media, our billboard company, that our "Do Not Sign the Petition" billboard, referring to the Reproductive Freedom for All petition, was vandalized sometime over the 4th of July weekend. The billboard on the Lodge Freeway near Schaefer Road had been covered up. When Outfront's installer uncovered the billboard a couple of days later, he discovered that the billboard had been vandalized by drawing a mustache on the photo of the baby. He took down the billboard.

In response to this vandalism, Outfront Media has graciously offered to provide us with three digital billboards for one week for our "One Person Can Change the World" July Campaign even though this was in no way their responsibility.

We thank Outfront Media for their thoughtfulness.

They Teach Our Children

By a nearly **three-to-one vote** on July 6th, the National Education Association (NEA) adopted a resolution stating the "NEA will publicly stand in defense of abortion and reproductive rights and encourage members to participate in ... rallies and demonstrations, lobbying and political campaigns, educational events, and other actions to support the right to abortion."

Do Not Sit on the Sidelines in 2022!

See the flier on Page 2 if you are still interested in joining us for the annual **Pro-Life Legislative Luncheon** on **Saturday, August 20** if you are not yet registered! Our powerful 2000 Crosses display will be up at **Our Lady of Sorrows** in Farmington from September 1-15. LIFESPAN's annual **Life Chain** takes place Sunday, October 2 and our annual Dinner-Auction is Tuesday, October 11. The annual **CIDER Walk for Life** will also be this fall. Despite the *Dobbs* victory nationally, Michigan sits on the precipice if the Anything Goes Abortion Amendment passes in November. Do not regret sitting out of the most important moral battle of our times, **BECOME INVOLVED TODAY!**

Confused about the Current Status of Abortion in Michigan?

You aren't alone! Under current Michigan State Law, abortion is illegal in the vast majority of cases, yet abortionists continue to kill in our state. This is due to a court injunction which prevents Act 328 of 1931, also known as MCL 750.14 & 750.15, from returning to effect post-*Roe*. MCL 750.14 defines that anyone who provides a drug or substance or uses an instrument with intent to perform an abortion is guilty of a felony. Despite pro-abortion propaganda, this means the

The Return of Eugenics

"Thousands of medical ethicists and bioethicists, as they are called, professionally guide the unthinkable on its passage through the debatable on its way to becoming the justifiable until it is finally established as the unexceptional." - *The Return of Eugenics* by Richard John Neuhaus (1988 Commentary Magazine).

When its harmful effects were finally realized, eugenics became a socially unacceptable philosophy. Unfortunately, Rev. Neuhaus' statement becomes more true every day.

abortionist is committing a felony and not the woman seeking an abortion. MCL 750.15 states that anyone providing, advertising, or selling a substance intended for procuring an abortion is also guilty of a misdemeanor. MCL 750.14 does allow abortions deemed necessary to preserve the life of the mother. The full law may be easily found at <http://www.legislature.mi.gov/>. The court injunction was issued by Judge Elizabeth Gleicher of the Michigan Court of Claims in Oakland County in response to suit filed by Planned Parenthood. Gleicher previously served as the losing attorney representing Planned Parenthood in a 1997 case in which the Michigan Supreme Court once again ruled there is no right to abortion found in the Michigan State Constitution. This echoed the ruling of the Michigan Supreme Court back in 1973. With Attorney General Nessel refusing to defend our state law, the State Legislature stepped in to appeal this decision to the Michigan Court of Appeals. In a separate action, Governor Whitmer also filed suit against the existing law arguing

Wee Care

What an emotional month this has been! Never in my lifetime did I think that *Roe v Wade* would be overturned! I am still in shock and speechless when it comes to describing my joy.

And, never in my lifetime, did I ever think that Pregnancy Centers would have all their windows broken and graffiti painted all over their buildings! Five local Pregnancy Centers (that I am aware of) have been vandalized - Dearborn Heights, Redford, Clinton Township, Southfield and Jackson. Shards of glass have covered their baby supplies and the group responsible has threatened that much worse violence is to come.

For two weekends, we hired security, but at almost \$1000 a weekend, that became financially impossible to continue. We have purchased some plastic containers to

protect a small portion of our items and have tried to move baby clothes into the interior hallways, but, at this stage, the only thing left to do is to pray that we don't become their next victim.

How very sad that this deranged group is harming women and their babies who desperately need help!

We cannot arrive early, depart late, or work weekends (that seems to be when they attack). We have the police keeping an eye on the building and as I said - we pray! Please pray with us!!

Throughout all of this, we have continued to help our precious babies - nothing will stop us and we continue to rejoice in the Supreme Court's decision!

Love, Karen

Youth Report

Dear Young People, Parents, Families, Teachers, Religious Education staff, Youth Ministers, and all others who work with Young People,

I was filled with great relief and much hope for the future of mothers and preborn babies and my heart had so much thankfulness to our LORD for the victory for Life on June 24th when I heard the news about the US Supreme Court's decision! I did celebrate for sure that day and over the weekend! Then, I had to come to terms with what that means for mothers and their preborn babies in our state of Michigan. I knew that *Roe v Wade* had ended in our country, but abortion remains legal throughout all nine months of pregnancy here in Michigan, as the former law from 1931 that bans it is being held up in a Michigan court so it cannot be enacted.

Instead of relief and thankfulness on Friday, July 8th, when I heard that the Reproductive Freedom for All petition drive was successful and acquired well over the number of signatures they needed, I was filled with a lot of frustration, deep sorrow, and even felt hopeless/helpless. I realized that now the people of Michigan will place their votes in November, either for the petition or against it. As

people of Life, our work for protecting mothers and preborn babies will be more intense as we reach out to inform people what this RFFA is all about. To encourage them to vote for Life, not death. This is an urgent time in Michigan history to live out your pro-life values. Will you join us? I hope and pray you will! My strength and dedication to Life has been refreshed... and I will do all I can to help in protecting mothers and preborn babies in our state! We can help you with what you need to arm yourself with education and provide handouts to people so you can discuss what is taking place. Just contact one of our offices by email or call us. November 8th will be here before we know it. Will Light and Truth overcome the darkness and lies?

Our friend, Ryan Bomberger from the Radiance Foundation, has a lot to say on how to counter the false narrative that being "Pro-Life" is somehow white supremacy. He makes a strong case and is very articulate! I hope you will read it and share it in every way you can! <https://radiancefoundation.org/abortion/>

Next month, I will report on the three young men who LIFESPAN sponsored to attend the Protect Life Michigan Life Advocate Intensive training. We reached out to many

Age Doesn't Determine Value

By Bradley Mattes

In 1973, the point of viability – the ability to keep a baby alive outside the womb – was about 28 weeks. Most infants at this age weigh slightly over two pounds.

Today, viability is 22-24 weeks gestation. The average weight of these babies is approximately 15.17 ounces at 22 weeks, 1.10 pounds at 23 weeks, and 1.32 pounds at 24 weeks.

Babies have survived even earlier.

It's rare but not unheard of that some infants have survived at 21 weeks.

A website has been documenting the births of very premature babies from around the world. Titled, The Tiniest Babies, it is sponsored by the University of Iowa Health Care and the University of Iowa Stead Family Children's Hospital.

The records date back to 1936, with the most recent entry from 2021. The information has been provided by lay media and medical journals. Or it has been submitted directly by a patient or family member with verification from the health provider.

It is well established that the gestational age is more important than the infant's weight when making a prognosis for survival. The registry supports this analysis. There were three babies born at 21 weeks who survived to go home from the hospital, compared with 26 babies born at 22 weeks. The youngest was born at 21 weeks 2 days.

The lowest weight of the babies was 212 grams, or 7.48 ounces which is less than a half-pound (.47). This baby was 24 weeks 6 days old when born.

Dr. Robin Pierucci, MD is a clinical neonatologist and medical director of a 50-bed neonatal intensive care unit (NICU). If you want to read an eye-opening piece regarding the unique challenges of caring for very premature babies, Dr. Pierucci has written a layman-level article on the topic.

At these early stages of development Dr. Pierucci has observed something that many of us are oblivious to. "I have witnessed that our personalities are present far earlier than many are aware. Even when born at a time when the internal physiology is more fetal than not, many premature babies arrive with an intact attitude."

Think about that for a moment, just over halfway through pregnancy babies can cop an attitude!

In this context, the Bible passage of Psalm 139:13-15 really comes to life. "For you created my inmost being; you knit me together in my mother's womb. I praise you because I am fearfully and

wonderfully made; your works are wonderful, I know that full well. My frame was not hidden from you when I was made in the secret place..."

Just how early did our personalities come to life? At this time, only our Creator knows.

The US Supreme Court's past obsession with viability when making sweeping life-or-death decisions has been disproven by the progression of science. Viability should never have been a determining point. Viability is only a measurement of man's ability to sustain life outside the womb, not a pronouncement of humanity.

As the window to the womb opens wider and wider, allowing more and more people to peer in, the prevailing consensus is that these are babies, and they need to be protected.

From the President's Desk

Dear Friends,

It has been over a month since the Supreme Court decided the *Dobbs vs Jackson Health*. I allowed myself to celebrate for twenty-four hours only. I knew it was not over and work in the pro-life vineyard's would have to continue. The one thing I was not prepared for was just how militant the pro-aborts had become. Like in so many areas of our country today, people have been subjugated, through politics, into groups. They respond to groupthink and action. And sadly enough, there is a large group of anti-life militants whose sole purpose is to have abortion on demand for any reason, at any time in the pregnancy, and by any means necessary.

I, now believe, that this is also a part of a bigger movement within our society to break down our American culture and beliefs – to do this you start with breaking up the family unit. For more than fifty years, this has been happening. You know how fractured and deviant our society has become. You see the attack on the family constantly. Most recently, parents have had to get more involved with their children's education. Especially on matters of sexuality and sexual reproduction at an early age. They are told by the Boards of Education, that they the educators - the educator not the parent - knows best what is good for their child and they need to back off.

Everyone needs to get involved. We need to bring back the Judeo-Christian ethic in our culture, in which, our country was founded. Life, liberty, and the pursuit of happiness was paramount. Though "shalt not kill" was a commandment that was seriously respected.

Not in today's Group society. It is all about the "me" and "I." If, "I" do not like someone or something, it can be destroyed, so that "I" may feel better. This is the culture we are fighting today. We must work toward changing hearts and minds to believe it is not always about "me".

We will shortly be in another fight for the freedom of the pre-born child. The death peddlers are again in Michigan. This time to change our Constitution. This Newsletter and past Newsletters have been trying to educate you on what this means. If they win this, it will set us back at least another fifty years and the pre-born human in Michigan will no longer be protected.

We must make a point of educating our family and friends. We must let them see that this is not just about "Reproductive Freedom." It will take away parental control of our children's reproductive decisions. It will cancel all the protection for women we have worked so hard to put in place. It will allow anyone to do an abortion - there is no restrictions on when, how, or where an abortion could be done. It is full of mischief!! The devil is in the details of this referendum. In the coming weeks you will hear and see more information: please become and stay informed.

Yes, *Roe v Wade* was overturned. *Dobbs* did not or will not stop abortion. The responsibility of that law went back to the States (where it had been before *Roe*). They will continue in many states to do abortions - it is up to us whether we allow it in Michigan. It is a hard road to climb but climb the mountain we must. May God give us the courage, perseverance, and the volunteers to stop the Death Peddlers in November.

Yours in Life, Diane

P.S. Recently you heard of a 10-year-old girl who was raped and got pregnant. The propaganda hustlers claim that, due to the new *Dobbs* decision, she could not get an abortion in Ohio (another lie - look up Ohio law) and had to go to Pennsylvania. They are going to use this tragedy as an emotional tool to get support. What I did not hear from media reports is the empathy and love of this child on the rape itself. The trauma that occurred during the rape. What is being done to help her through her physical and mental trauma? Where were the parents? Who did it (weeks later they did arrest someone)? Not one thing on the rapist and the condition of the child after the rape. The reporting was all about not being able to get an abortion (which was also another traumatic procedure for this child). Oh, but everyone connected can now walk away - Problem solved! It is not solved! This child has been brutally attacked and used. She will never get over that. She needs counseling for her mental health as well as physical care for any damage done during the rape on her vaginal tissue. She will need our prayers. Do not let them use her as their propaganda tool!!

After one of my speaking engagements, I had a woman who came up to thank me. She shared with me that she had been raped coming home one night alone. That she had become pregnant. She shared with me that her husband, her parents, her friends where all were pushing her to get an abortion. She said once she felt the baby move, she could not go through with it. That this child was an immense joy in her life. Then she added, the worst thing about the whole event was the rape itself and the trauma she went through. She cried for months, not because of the pregnancy, but because of the rape. No one was there for her to get her through that dark period of her life. She had the baby which gave her purpose to go on. I will never forget her or her story. This is the type of story you do not hear.

that there is an (*unwritten*) right to abortion in the State Constitution. She has asked the Michigan Supreme Court to expedite the process and take up the case sooner rather than later.
